CERTIFICATIONS

Full Stack Development [🔗](#) | (Java, J2EE, Angular).
(The Kiran Academy, Pune)

Jun 2023 - Nov 2023

PROJECTS

Social Media Web Application [🔗](#) | [Spring Boot](#), [Hibernate](#), [MySQL](#), [React Js](#)

March 2024

- Designed and developed a comprehensive Social Media Web Application using Spring Boot, MySQL, and React.js technologies. The project aimed to provide users with a platform to connect, share, and interact with each other.
- Features include comprehensive user profiles, post creation and sharing with engagement features like likes and comments.
- Integrated WebSocket technology for real-time communication and advanced authentication protocols for enhanced security and user trust.

Banking Application [🔗](#) | [Spring Boot](#), [Spring Security](#), [Hibernate](#), [MySQL](#), [Angular](#)

March 2024

- Developed a full-stack banking application using Spring Boot and Angular, integrating advanced security features and user-friendly interfaces for seamless banking experiences.
- Features include secure authentication, account management, transaction processing, and intuitive dashboards.
- Implemented HTTPS, CORS, error handling, and logging for enhanced security and efficient issue resolution.

Personal Portfolio Website [🔗](#) | [React Js](#), [HTML](#), [CSS](#)

September 2023

- Built a dynamic personal portfolio website using React.js, showcasing projects, skills, and experience.
- Employed modern design principles for enhanced user experience and responsiveness.
- Utilized React components and state management for seamless navigation and content presentation.
